

Loving, Learning,
Community.

ST MARY'S CE PRIMARY SCHOOL ASTHMA POLICY

(September 2023)

Mission Statement

Based upon our belief of Jesus Christ as the Son of God and Saviour of the World, we will give all children a positive experience of Christianity and learning, whilst retaining a respect for other faiths.

We will promote the spiritual, moral, cultural, mental and physical development of all pupils, within a caring, loving, stimulating and nurturing environment, which is firmly based upon Christian values.

All children will receive a wealth of high quality educational experiences through the positive involvement of school, home and St. Mary's Church.

Background

This policy has been written with advice from the Department for Education, Asthma UK, the local education authority, local healthcare professionals, the school health service and the school governing body.

This School recognises that asthma is a widespread, serious but controllable condition affecting many pupils. The school positively welcomes all pupils with asthma. St Mary's Primary School encourages pupils with asthma to achieve their potential in all aspects of school life by having a clear policy that is understood by school staff, their employers (the Governing Body) and pupils. Supply teachers and new staff are also made aware of the policy.

All pupils who come in contact with pupils with asthma are provided with training on asthma in school. Training is updated once a year.

Asthma medicines

- Immediate access to reliever medicines is essential. The reliever inhalers of all pupils with a diagnosis of asthma, are kept in clearly labelled year group asthma boxes in a central location. **This is the small office opposite the main reception and is accessible at all times for staff and pupils.**

- Parents/carers are asked to ensure that the school is provided with a labelled spare reliever inhaler. This will be stored in the central school location – the small office opposite the main reception office. All inhalers must be labelled with the child's name by the parent/carer.
- School staff are not required to administer asthma medicines to pupils (except in an emergency). School staff who agree to administer medicines are insured by the local education authority when acting in agreement with this policy. All school staff will let pupils take their own medicines where a diagnosis, asthma care plan or prescription from a GP are provided to the school.

Record Keeping

- At the beginning of each school year or when a child joins the school, parents/carers are asked if their child has any medical conditions including asthma on their enrolment form.
- All parents/carers of children with asthma will be provided with an Asthma Care Plan form to give to their child's doctor or asthma nurse to complete. Parents/carers are asked to return this form to school. From this information the school keeps its asthma register, which is available to all staff. School Asthma Care Plan forms are then sent to parents/carers of children with asthma on an annual basis to update. Parents/carers are also asked to update or exchange the Asthma Care Plan form for a new one if their child's medicines, or how much they take, changes during the year.

Exercise and activity – PE and games

- Taking part in sports, games and activities is an essential part of school life for all pupils. All teachers know which children in their class have asthma and all PE teachers at school are aware of which pupils have asthma from the school's medical needs register.
- Pupils with asthma are encouraged to participate fully in all PE lessons and/or out of school activities. If a pupil needs to use his/her inhaler during a lesson he/she will be encouraged to do so.
- Classroom teachers follow the same principles as described above for other games and activities involving physical activity.

Out-of-school activities, trips and outings

The school will consider asthma triggers when planning out-of-school activities and will ensure there is a member of staff trained in First Aid in attendance. Pupils must ensure they bring the correct inhaler, which must be labelled. Failure to do so may result in pupils not being allowed to attend, if parents/carers cannot be contacted.

School environment

- St Mary's CE Primary School does all that it can to ensure the school environment is favourable to pupils with asthma. The school has a definitive No-Smoking Policy. As far as possible school does not use chemicals in science and art lessons which are potential triggers for pupils with asthma.

When a pupil is falling behind in lessons

- If a pupil is missing a lot of time at school or is always tired because his/her asthma is disturbing their sleep at night, the class teacher will initially talk to the parents/carers to work out how to prevent their child from falling behind. If appropriate, the teacher will then talk to the school nurse and Special Educational Needs and Disabilities Coordinator about the pupil's needs.
- School recognises that it is possible for pupils with asthma to have special education needs due to their asthma.

Asthma attacks

- All staff who come into contact with pupils with asthma know what to do in the event of an asthma attack.
- In the event of an asthma attack school follows the procedure outlined in Appendix A.

Roles and responsibilities

Governors will:

- seek to ensure the health and safety of all staff and anyone else on the premises or taking part in school activities (this includes pupils). This responsibility extends to those staff and others leading activities taking place off site, such as visits, outings or field trips;
- ensure that an appropriate Asthma Policy is in place;
- make sure the Asthma Policy is effectively monitored and regularly updated;
- provide indemnity for teachers who volunteer to administer medicine to pupils with asthma who need help.

The Headteacher will:

- plan an individually tailored School Asthma Policy with the help of school staff, school nurses, local education authority advice and the support of the Governing Body;
- plan the School's Asthma Policy in line with devolved national guidance;
- ensure good communication of the policy to everyone;
- ensure every aspect of the policy is maintained;
- assess the training and development needs of staff and arrange for them to be met;
- ensure all supply teachers and new staff know the school asthma policy
- delegate a staff to check the expiry date of spare reliever inhalers and maintain the school asthma register

School staff will:

- follow the School Asthma Policy;
- know which pupils with whom they come into contact, have asthma;
- know what to do in the event of an asthma attack;
- allow pupils with asthma immediate access to their reliever inhaler;
- tell parents/carers if their child has had an asthma attack;
- tell parents/carers if their child is using more reliever inhaler than they usually would;
- ensure pupils have their asthma medicines with them when they go on a school trip or out of the classroom;
- liaise with parents/carers, the school nurse and medical needs coordinator/SENDCo.

PE teachers will:

- understand asthma and the impact it can have on pupils. Pupils with asthma should not be forced to take part in an activity if they feel unwell. They should also not be excluded from activities that they wish to take part in if their asthma is well controlled;
- ensure pupils have their reliever inhaler with them during activity or exercise and are allowed to take it when needed;
- if pupils have asthma symptoms while exercising, allow them to stop, take their reliever inhaler and as soon as they feel better allow them to return to activity. (Most pupils with asthma should wait at least five minutes);

- remind pupils with asthma whose symptoms are triggered by exercise, to use their reliever inhaler immediately before warming up;
- ensure pupils with asthma always warm up and down thoroughly.

Pupils will:

- treat other pupils with and without asthma equally;
- let any pupil having an asthma attack take his/her reliever inhaler (usually blue) and ensure a member of staff is called;
- tell their parents/carers, teacher or PE teacher when they are not feeling well;
- treat asthma medicines with respect;
- know how to gain access to their medicine in an emergency;
- know how to take their own asthma medicines.

Parents/carers will:

- ensure school has the correct labelled and in-date inhaler in school;
- ensure the school has a complete and up-to-date asthma care plan for their child
- ensure their child's reliever inhaler (and spacer where relevant) is labelled with their name;
- inform school of any medicines the child requires while taking part in visits, outings or field trips and other out-of-school activities such as school team sports;
- inform school of any changes to their child's asthma (for example, if their symptoms are getting worse or they are sleeping badly due to their asthma);
- ensure their child has regular asthma reviews with their doctor or asthma nurse (every six to 12 months)
- ensure the that their child's reliever inhaler is within its expiry date
- provide the school with a spare reliever inhaler, clearly labelled with their child's name

Appendix A

Procedure for treatment to be given during an asthma attack

Common signs of an asthma attack:

- coughing;
- shortness of breath;
- wheezing;
- feeling tight in the chest;
- being unusually quiet;
- difficulty speaking in full sentences.

What to do

- keep calm;
- encourage the child or young person to sit up and lean slightly forward – do not hug or lay down;
- make sure the child or young person takes two puffs of reliever inhaler (usually blue) immediately (preferably through a spacer);
- ensure tight clothing is loosened;
- reassure the child.

If there is no immediate improvement:

Continue to make sure the child or young person takes two puffs of reliever inhaler every two minutes until the symptoms improve.

Call 999 and the parent/carer urgently if:

- the child or young person's symptoms do not improve in 5–10 minutes;
- the child or young person is too breathless or exhausted to talk;
- the child or young person's lips are blue;
- you are in doubt.

Important things to remember in an asthma attack:

- Never leave a pupil having an asthma attack;
- In an emergency situation school staff are required under common law, duty of care, to act like any reasonably prudent parent;
- Reliever medicine is very safe. During an asthma attack do not worry about a pupil overdosing.
- Send another pupil to get another teacher/adult if an ambulance needs to be called.
- Contact the pupil's parents/carers immediately after calling the ambulance/doctor.
- A member of staff should always accompany a pupil taken to hospital by ambulance and stay with them until their parent/carer arrives.
- If staff have to take pupils to hospital in their own car they must be accompanied by another member of staff and have the appropriate car insurance. However, in some situations, it may be the best course of action.

- Another adult should always accompany anyone driving a pupil having an asthma attack to emergency services.

Policy agreed: September 2023

Policy review date: September 2025
